Despite rumors that Lee Priest had tried to kill himself, the truth is that it simply didn't happen. In fact, according to my sources, Lee was out of the state (of Arizona) for the last 2 days picking up a car in California. Chalk this up as another Internet rumor or possible publicity stunt.

Word is that Lee's ex-girlfriend no longer wants anything to do with Lee. I have to assume that his latest escapade must have left a real bad taste in her mouth.
